Subject: Division Directive to Provide Updated Notice of Intention to Commence Small Mining Operations, Alan Chew, Chew's Flagstone Project, S/047/0061, Uintah County, Utah

Dear Mr. Chew:

Thank you for your recent payment of permit fees for the Chew's Flagstone quarry and for modifying the certificate of deposit used as reclamation surety. The Division of Oil, Gas and Mining has changed the name of the small mine operation from Split Mountain Flagstone to Chew's Flagstone.

As you are aware, in 1994 the Division received a Notice from the Bureau of Land Management, and the Division has been using this document as your Notice of Intention to Commence Small Mining Operations (NOI). Since the land ownership has recently changed to where the quarry is on patented land, the Division needs an updated NOI.

By September 22, 2014, please provide an updated NOI including maps. A blank copy of the form is enclosed with this letter, and it is also available on the Internet at http://linux1.ogm.utah.gov/WebStuff/wwwroot/minerals/permit_forms.html.

The required maps are a location map and an operation map. The location map should be at a scale of about 1:24,000 (1"=2000') and needs to show how to access the site. The map in the BLM's Notice is at the proper scale but does not show how to get to the site from a highway. The operations map should be at a scale of about 1"=200' and needs to show locations of any facilities associated with the quarry.

If you have questions or concerns regarding this letter or providing the information required in the NOI, please contact April Abate at 801-538-5214. Thank you for your help in completing these important regulatory requirements.

Sincerely,

A handwritten signature in black ink, appearing to read 'P B Baker', with a stylized flourish at the end.

Paul B. Baker
